

Rogers Family Letters 1846 - 1914

Archives: Box 24

This item is held by the Canadian Quaker Archives and Library in Newmarket, Ontario in Box 24, File 5, item 13.

The transcription was coordinated by Jane Zavitz Bond, archivist for Canada Yearly Meeting, and fully transcribed by Sheila Havard and prepared for posting by Randy Saylor. The text was transcribed as written. Transcriber notes are in square brackets. The book has not been proof read.

Jane Zavitz Bond, archivist, relates these letters were collected by Arthur Dorland in the 1920's when he was visiting many meetings to gather information for his research. Arthur Dorland was close to the Rogers family. Jane thinks that Albert Rogers may have paid for the publication of Dorland's book.

This transcription was posted on the Canadian Yearly Meetings Archives web site. By agreement it is now posted on Canadian Friends Historical Association (CFHA). It is made freely available and supports search, cut and paste. CFHA will officially grant linking privileges to organizations that support this free access. CFHA wishes to express its gratitude to those who worked on this project.

Researchers are requested to cite the transcription when incorporating passages excerpted from this transcription. Please note that CFHA welcomes written comment, submissions and research related to the Canadian Quaker experience and legacy for publication consideration in The Meetinghouse newsletter or the Canadian Quaker History Journal. Please contact chair@cfha.info for additional details and see also the submission guidelines provided on the CFHA website.

[Note: This transcript has not been proof read. It reflects the original as closely as possible but, due to the cut-off sections in the photocopies and the non-standard spelling, punctuation and capitalization used in many cases, there are certainly discrepancies. There are numerous duplications and the sequence of the sections is sometimes unclear.]

to do with and think we shall have plums and apples enough, and other crops look well – Elijah Gardner did not start as soon as he expected when he was here and we wrote a letter to the and Lydia said she wrote one and then he went without taking them, give my love Mary Eliza and except as much thyself.

Dear Mary as thy Mother is writing to thee I felt more than willing to drop a few lines to thee, the subject of thy continuing in the school, the year out had been discussed before the reception of thy letter, and the conclusion come to was that if it was thy choice and the Superintendents and teachers thought it necessary, that we would try to spare thee, altho we very much miss thee, in regard to thy coming up to Make us a visit I think I shall be down after thee between this and [the times] + Yearly Meeting We should like to have thee here a while before as thy [assistance] would be useful as well as thy company agreeable it is not that we wish to Make a show in the world or that our dear Children may be lifted up, but hope it may prove a lasting benefit to them in after life I very much crave for thee as thee is the oldest and thy example may be of great service to the younger brothers and sisters, all that I can do for thee will be of but [very] little service to them, without the divine blessing, may it rest upon them, and may they be sensible of it, I believe he has not been wanting, to show himself gracious to thee, mayest thou then be strengthened to yield thy neck to his Yoke and to submit thy back to his burden, while in the morning of thy days, thus thou wilt be prepared for future usefulness in the Militant Church, or for early death, there is a beauty in the [ever] blessed truth which surpasses every thing that this world can afford, with all of its allurements which [vanish] with the grasp, and leave a sting behind, but when we follow the dictates of divine truth what [cut off] peace we are made to be partakers of, but we have an [illegible] adversary to contend with, who is trying continually to allure us from the path of [cut off]

Dear Mary,

I arrived in Toronto on 2nd day Morning where I received a note from Augustus giving Me the solemn news of the death of dear little Sherman who departed this life on first day Morning at nine o'clock all that was within me was moved but I felt the consoling [credence] that all was well and that is was [cut off] in best wisdom, and perhaps it was better on thy account that I was not permitted to be there they had the Docter with him for nearly 2 weeks and the simpathy and kind attention of all the neighbours thy dear Mother was supported through the trying [illegible] to her [humble] admiration and feels to render the praise to him who alone is worthy, his funeral took place at 5 o'clock on 2nd day evening the day before I reached home his funeral was attend by a large [concourse] of people and was crowned with an unusual solemnity I hope we shall be enabled to accept it as a dispensation of providence and not to repine. We feel very much for thee and wish thee to write directly on the reception of this if thee feels as if thee cant be [contented] to stay without coming home and Making us a visit I will [come] after thee and thee can stay until after half Years Meeting.

[Page 6 - Box 24-5 – # 13 - copies of Rogers letters]

[13b]

I dont feel as if I could say much more at this time but hope thee will not give way to grieve to much I believe thee is in thy place where thee is and that thee is designed to be useful and that he who has hitherto preserved and kept when thee knew it not still will support through all if thee is willing to submit thy neck to his yoke, My greatest concern for My dear Children is that they May Seek a blessing in the [truth] and to See them grow up in the nurture and admonitions of the Lord, that they might be prepared for future usefulness as for early death, we are all as well as common except Grand Mother not quite so well they all join in love to thee and Mary Eliza with Sister Lydia from thy affectionate Father

My dear Friends,

It was a great pleasure to me to hear of your gift to the Friend's Service Council. I recalled so many cherished memories that I wanted to send you a note of personal thanks. It often seems as if we cannot find the money or see where it can come from for the work to which we are called abroad. And your gift was therefore a great cheer & gave us a feeling that our needs might be met in God's [illegible] way. I have been associated with our foreign work all my life & I am now 71. You may remember my Father was the first Honorary Secretary & during the early years much of the work was done in our home. I remember so well your Father's visit to us when he came over on behalf of Pickering College, & later when my Father and I visited your homes. I think

Dear Ms. Rogers

It is borne in [upon] me to send you a few words of sympathy while you are in this Borderland of suffering and quiet waiting [for] [He] [illegible] will.

Your life has not all been [strong] [illegible] - Take the [illegible] been [He] [illegible] to be to other Souls a [illegible] of strength in some accordance with His Divine will, that thou shouldst be restored again to health.

We have had many of His dear servants with us from other Yearly Meetings and the burden of their Ministry has been for our young people, that they may go forward under the guidance of the Holy Spirit to the help of the Lord against the mighty, and that their watchword be “Immanuel, God with us”.

Our dear friend [Mac] Hobson from across the water tenderly referred to thy visits among them.

Many expressed the indebtedness Canada Yearly Meeting to thy earnest effort in the years gone by, and [of] the gentle firmness with which thou faced the many difficult problems that had to be solved, thus inspiring all with thy faith and confidence that God would overrule all for the glory of His name -

We trust that thou may realize at this time the comfort of the promise “The beloved of the Lord shall dwell in safety by Him; and the Lord shall cover him all the day long, and he shall dwell between his shoulders.” Deut. 23.12

We remain with love and sympathy

Dear Friend:

Ever since word has gone abroad of thy recent illness, there has been throughout the various meetings a deep sympathy with thee and as we have met in our annual gathering we have greatly missed the inspiration of thy presence and counsel – We greatly appreciated thy kind letter so full of loving words of counsel and prayer – feel interest in our behalf. Our hearts were drawn together in much love and tenderness before the Lord and we were led unitedly to ask if in [...]

£1,000 for the F.S.C.

The Friends Service Council acknowledges with deep thankfulness a most timely and unexpected gift of £1,000 which was received last week from two Friends in Canada. Behind this gift lies the story of an incident which is probably quite unknown to most English Friends to-day.

In 1892, Canadian Friends were struggling with a debt on the reopening of Pickering College (the Canadian Quaker College then situated at Pickering, near Toronto), which had been closed for three years for financial reasons. In that year, and again after the College had been burnt down in 1905, an appeal was made to English Friends, to which they had responded, and thus helped in the reopening of the college. After the fire the college was rebuilt at Newmarket, where it is still situated, though it retains the original name of “Pickering”.

As a thankoffering for the help given more than 40 years ago, and because of their deep interest in the work of English Friends for world friendship, both in Europe and more distant lands, two Canadian Friends have sent this generous contribution towards the funds of the F.S.C.

In the letter accompanying their gift they speak of “the very gracious and friendly way” in which the Canadian Friends’ representative was received by English Friends when he came to ask for help to free the college from debt, and say: “We remember the thrilling moment when it was announced in

Yearly Meeting that word had come from England of a final subscription which would clear the college entirety from the burden of debt it had been carrying.”

My Dear Daughter

I have been as busy as ever since you left & see no chance that I can come to England in time to come back with you. The Standard have been over here looking round & talking of arrangement but I shall not feel sure till I see it done however I can only wait till I see what comes. I feel as if I want to go to England when I am under no pressure I miss Gertrude very much I long to see her when I come home tired and worn out after hard trips.

Life goes on much the same as usual. I have been away much of the time – just now there is great excitement in the Elections & it looks as if there might be a change of Government on the [23rd] of this month. I was out last night to Massey Hall to hear [Lauria] & others they had to lock the doors an hour before the appointed

[Page 16 - Box 24-5 - # 13 - copies of Rogers letters]

appointed time every part full association Hall was more than full from the overflow & they waited till after Eleven for Mr. [Lauria] to get through at Massie Hall – he then spoke to them.

I was tired & did not wait for him to finish at Massie Hall – I recd the Friend telling of London YM – I was more interested than usual thinking of you and Gertrude being there tho I know if I had been there I should have grown weary... Still I shall always feel that it is the motherland & London YM the head of the church I love – I want you to feel as you meet the people I know that I have sent a special message of remembrance to all of them. I am so glad Gertrude Janson has been able to be up & be with you – I feared so much from reports last year that she would never see you – I have thought so much of her from the time she introduced herself to me at the Monthly Meeting at Durham – she will remember

the [time]. I was then loaded down with care & I almost shudder as I look back at what I have passed through since then, all of the [Woodrow] trouble & competition in trade – I could not have lived if it had not been for the everlasting arms that have ever been underneath. It would have been sweet to die if by so doing I could have shielded those I love from trouble. God for Jesus sake has been very merciful to us and from the darkness has brought light & will I beleive bring us through all that can assail us. I feel I am getting old and the strain will break the thread in time but it troubles me not & if it should some time come suddenly you will all know that I am anchored at last in

My especial desire is to help the needy & the work of my own church – God has so tendered my heart that I long to ease the sorrow of every troubled heart – there is only one way – the love of Jesus – Say to dear Gertrude Janson there is rest & joy & peace for the weary; there is balm - Healing balm for the sick in the Lord Jesus. I do not doubt she is resting there. resting under the shadow of a Great Rock – May the Lord as He sees meet comfort and cheer & keep her continually give my love to her. My Dear Daughter

I have been wanting to write you for some time but at night when I get home I am tired & at the office I am too busy – but tonight I have just had a hearty supper & will not put it off any longer. I am very sorry to hear you have been so poorly but hope you will now be feeling better. You will have to take the best care possible of your self and not fret about the work I shall suggest to the Girls to turn in and try and help you with your sewing [etc.]. I shall likely come down before long as I have to go to Montreal & can come that way.

I have just returned from attending the funeral of W. [illegible] at Pickering – I staid at

the college all night – they have altogether including day students about - 85 students on the Roll – this is exceeding good - if no disaster overtakes the school, its success is assured - I am very glad indeed for its prosperity & hope I may be able to get some money from New York & New England [illegible] – I hope to go there before our YM if Albert gets back in time & with improved health. I have just recd a letter from him written from Myrtle Bank Hotel Kingston - Jamacia - I think from the letter he will be all right tho' he had a very rough passage in the first part of it & was sick indeed – said the steward gave him beef tea & [illegible] but now with the temperature

at 85 and plenty of fresh air he should get on. I was sorry he had to stay as long in New York, but he did not want to go till we knew how matters would turn & then he had to wait for next ship – Campbell had been trying to get the Standard to open an office in Toronto & leave us but [illegible] had matters pretty well stirred up – he wanted to come to Toronto himself but with Mr. Dudley's assistance I [illegible] him out and instead of coming to Toronto he has been sent to India – I suppose that now the [cnty] has been changed the Standard will make some further moove in Ontario but I do not think it will be detrimental to us as they have promised we shall be

Farr & Co are also making money & if the Refinery does not make money We will only loose half of it so you see that a few years attention will make it so we can pay cash for all our goods I am writing these things so you may be of good cheer – there is no skeleton in the closet as there has been for the last five years – I believe Albert will return in good health – I shall not

I have taken [Spooner] of Port Hope & given him a chance to accumulate a small interest & he opens the mail while I guide the ship of state, I feel we are in better shape than we have been & I do not think the change in the tariff will hurt us in the end I seem to be fully restored in health when in New York (I was there for a week) I consulted a good Doctor & on examination he says I am fully restored & the disease wiped out – tho I must be careful as

I feel that day will come even if I should not live to see it – I am writing this letter at R R Speed and will

not vouch for its correctness so I hope you & D will pass my blunders over as I am such a bad hand to look after detail that I do not even intend to read it over so you will have to take it as it is – at any rate it would be about what Uncle Levi told Jo [Kately] when he said he would like to send his boys to school to make something of them “it would be hard work to make a whistle of a pigs tail” You and Dr will both read this letter so there is no need my writing seperately – there is no need of him takeing any trouble about what Jo asked him about as there is no

My Dear Daughter

I recd thy very welcome letter on my return from Toledo. I was there on business & had to remain over sabbath. I was very much worn & suffered a good deal from neurology & am not altogether clear of it yet. I have been at home very little of the time there are so many things to look after that it keeps me on the go but I hope after a while I shall get easier – the three months absence make gaps not easily filled up at once – I am glad you were pleased with the things sent – I thought it would be handy for you to have the oil there so you would not have to send out for it – when it gets empty let me know & I will get Morris to fill it – I am glad you are satisfied with the place – I think myself that it does nicely – Albert has quite a wish to sell 107 & buy on Sherbourne near Carlton – it

[Page 26 - Box 24-5 – # 13 - copies of Rogers letters]

[13i]

would be nice to be where we could run home to dinner & not have so far to go on first day & if we can sell where we are & get [suited] in another place we may change tho' I very much dread pulling up & getting settled – I am also rather dreading Yearly Meeting – it is hard work & makes a break in our work – when do you think of coming up – We expect this year to have an 8 am boat instead of 7 from Long branch this will give us an extra hour in the Am which I think we shall appreciate. We have a fresh boat which makes very good time – we are getting the veranda floor & steps painted also the back kitchens - I suppose they have told you that Albert rented Mothers cottage for \$120.00 I was glad it went off early. I have not written to her since my return – have not felt like writing any one as I have felt under pressure all the time – I had a very nice call from [Squire] Hill – it was so nice to see him well after he had been so near death – Our Toronto Meetings have been very good not so loud & a real worshipful feeling good sized - prayer Meetings not afraid of a little silence.

With much love to both of you from Father

Have been away & just got home – Went to London on business – thy letter of 2nd only recd yesterday on recpt of the other letter I wrote enclosing a check for 50.00 which I hope you have recd. Your letters would come sooner if directed to the office instead of the house – our Box is 1072 – I am uneasy about thy health & want thee to be sure and take care – you must hire help so as not to leave the work to fall on thy shoulders – it is indeed

fortunate that you are at a Hotell where you can have good care – My fear in the start was that Rachel might be taken worse where she would not get care – as it is now I know she will have better care than she could at home & there is no use worrying about cost, comfort is the main thing – and Rachel should have every thing to make her comfortable – just as well to use it as not, I hope she may get round so as to come home – but it will not do to think of mooving her untill fully satisfied she can bear it with-out injury – I will come when she is able to be mooved or at any time if she grows worse – be sure and telegraph if any worse symptoms appear

My Dear Child

I recd thy letter when I went home last night & was glad to get it – Glad you are making the acquaintance of my friends & enjoying yourselves. I notice what thee says about leaving NY – I do not want thee to stay there one minet after ready to go. the whole idea of this trip is rest & comfort. I knew it had been a hard summer & there seemed to be an [unsatisfied] & weary feeling & I wanted you to get rested & recruited if the idea has gotten into your head that I want you to be away from home on [a/c] of Janson or any other man it is wrong. I have passed through the world long enough to know that take a toy away from a child & they want it. I was alarmed about your health and wanted you to have perfect rest & thought the best way to get it was make you feel free to enjoy your self – this I want

[Page 31 - Box 24-5 – # 13 - copies of Rogers letters]

[13l]

you to do only so long as you are fully willing to do it & when you come home I want you to invite Janson home with you just as often as you want to. he stands round kind of out of the way when I am round & if I speak to him I have to go out of my way as he wont speak nor notice me unless I first salute him, any one that is good enough to associate with my children is good enough to come to my house & I want all my children to feel that home is a place where there is freedom, & I do so much want my children to feel so. It is not likely that I will live to be what might be called an old man – I have been a long time on a [storm] & some day I may go down sudden – while I do live I want there to be the fullness of home at my house – now I want you to enjoy your visit – go to what friends you want to see stay just while it pleases at each place – come home when you want to I did not think about people calling on you at Mrs [illegible] & think it would hardly be the thing – I don't want you to make Mrs [illegible] feel bad as it was kind in her but I think you had better go on to Poughkeepsie with Joe & [illegible] good by to NY for the present – remember me to Mrs [illegible] & the Girls – Esther was a little disappointed at not getting a letter from you – I think she has written one letter which you did not get

I recd your letters late – on Saturday night & was very glad to hear from you – I do not want either of you to fret or feel bad about the cost as it cant be helped & it was so fortunate you were at a place where you could have care – I feared Rachel might be taken sick while away but when the Dr told her to go I was in hopes she might miss it – I do not blame her being away for it as she was very weak before starting and

To My Dear Rachel

I was so glad to get thy letter – I know it must have cost an effort to write it – I know the feelings of the heart without the written words but it sweet to know that even with an effort thee is able to write – I feel very thankful for thy recovery so far & pray for thy restoration to full health, all is in the hands of Him who doeth all things well, at Longest this life is only short & it has often seemed to me if I could lay it down

and be at rest it would be sweet – but my children and friends are dear to me and it gives me joy to work for these – great longings often take hold of me & when I see want and sorrow stalking round & the thought often comes if I could only drive sadness and sorrow from all these wretched homes I would freely lay down my life – but all these feelings matter not – all must tread the wine press alone – only one can go by our side – our dear loving Saviour – I know He has long been a dear loving Saviour to thee and this fills my heart with Joy – All is in His hands – do not worry for the expense is only made to use spare no expense when thy comfort & restoration to health is in the balance I have sent check for 100 & will send more as needed – I will try and come over if I can get away – I am writing in much haste so please excuse haste

My Dear Children

I have just come up to my room & before going to bed will write a few lines. I reached Buffalo last night – went to bed & had a good sleep. this Am & all day it rained very hard so I did not go round as much as I would have done, but I called on several oil men & not one but what says it is a good thing – it will take some time to bring it into use but I think it will pay in the end – I have not tried to sell it yet – I don't think

[Page 39 - Box 24-5 – # 13 - copies of Rogers letters]

[130]

that I will try at present – in Buffalo. There is some chance of there being a pipe line come here – if so there will have to be large tanks & if this turns out well, it would then be worth much more – besides this is not the time of year to build tanks but I am well satisfied to show it & make no present sales my trip will be worth all it costs me in the knowledge I will gain in the oil business as I now think it certain I shall go into oil in Toronto – I shall look round a little more here tomorrow & probably take the train for Cleveland at noon tomorrow. I learn the Standard oil Co. have their head office there – they are the oil Kings of the States & I would not at present sell if I had

[Page 38 - Box 24-5 – # 13 - copies of Rogers letters]

[130]

the chance, till I see them – I shall go through the oil region before I return so as to learn all I can, It will be of great use to me in future business - I find they make very large tanks 50000 to 100000 Brls - I also find they are often struck by lightning & burned & I see no reason why, in the end this tank should not take the [load] of course it cannot come into [geral] use at once as all these large tanks are now in use – but let it be once established & its adoption will follow, I

[Page 39 - Box 24-5 – # 13 - copies of Rogers letters]

[130]

know there is hard work ahead & I do not look for an easy time in making sales, It may be imposible to make any until we build a tank of our own, but I feel more sure than ever that there is a good living in the oil trade in Toronto – the heavy oil men here have ordinary iron tanks – when I told them they had [illegible] in toronto – they said at once that even on an ordinary tank there was a great saving over [illegible] & all of them seem to think this tank will work – I will probably be at [illegible] by Sunday I would like some of you to write me there as I will be there several days - well I suppose you are now thinking & perhaps wondering where I am – I fancy I can see you all sitting round the fire – I dont think you will be out this stormy evening – I would like it if I could only be home at night – I dont find any

My Dear Daughter

Thy letter of 20th recd some days ago in my absence from home also one from Joseph since then I can hardly tell you how busy I am – I have been on the go all the time, not a week passing without my being away – When I read the letter I intended to ans at once but before I had time other matters called me away & I had to make a sudden trip to Indiana – I reached home last night at ten PM very tired – to day I was at meeting & Sunday school & thought I would write a long letter this PM, but it is now nine of the clock & I got no sleep till after midnight last night – so I know thee

will not look for a long letter from me this time thy nice letter deserves a better one & I will write one soon – I never have had so much to do before & to day I have recd notice that I am to go & take charge of Dayton office & transfer its business to this – I will start for that place on tuesday & while there will write Joseph a letter if I can spare the time to do it – I cant tell you how much I was pleased with both of your letters & say with all my heart – God Bless & keep you both my dear children. We have had no winter here that could be called winter – the grass has been green for the last six weeks & I saw the farmers ploughing when out this last trip – While away I had the privilege

and see her, her Father & Mother are particular friends of Mine – they live in Mt Auburn & have about the finest house there - the House & lot cost over \$100 000.00 they are very rich but are real nice people & I enjoy a visit very much. I would like the to be real sociable with her & it would do [illegible] no harm for the to tell her that I have often mentioned her Father & Mother as they are the people I have frequently mentioned – I saw her Mother & Father to day & spoke to them, they are well her Mother told me she had asked her Daughter to call & see thee – but said she was not sure she had as she was bashful – If it is allowable Joseph might go along as I would like for you to know them – tho' I do not think her brilliant – but none of us are & so long as the heart is right we are doing the best we can.

I am not sure whether Joseph saw her or not – she has always been very kind & friendly with me, in fact all the friends here have been more than kind – I of course intend Joseph to remain next term and will send money to buy such clothes as are needed thee and him make an estimate of what you both will need & I will send as I have the money by me – Thy memory is good about the fire I could not have told the time – how it has gone by & I still in the same business – I have no expectation that I will still be in it six years hence for it seems to me as if the Co are drawing in – they are all rich enough to wind up and I think they will in a year or too

more – I will be ready to wind up at any time they say the word – but I will not think anything about it – now make the most of the chance you have & learn all you can for I feel proud of my children & want to be able to say in the coming years if my life should be spared – these are my children & feel when saying so that you were an honour to my name

I again say Heaven bless you both My Dear Children I never close my eyes in sleep but what my thoughts are lifted up in your behalf in Him who alone can guide us in the path of peace

My Darling Daughter

It lacks a few moments of time to go to dinner & as I can spare them from other work I will write a few lines & if I do not get time to finish just now I may in the future I cant tell how much comfort it brings me to get & read thy letters In my life of toil & hurry they are like bright spots in the Desert I am looking forward in hope to the coming future – I do not

paint it with the bright colors of youth for I know as in the past so in the future there will be dark clouds around my life – but with such kind & good children waiting to fold their arms around me, surely I am right in coming to you, if at any time in the future when we are all under one roof you should see your Father silent & perhaps sad – never for a moment doubt my love or think it is one a/c of my children for I love you with a love so strong that if the need should ever come I would lay down my life for my childrens sake – I cant share the time to *[cut off]*

far & wide that I am unable to bind them down to plain prose. I can feel so deeply & think so much that the words I do utter seem like stunted fruit from so rich a field – but it is not always the uttered word that sinks the deepest in the heart – there is a magnetic influence – a something – a language Divine which fills the heart & tho' no uttered word is heard, yet the knowledge that we are loved [winds] us round

round & round, such love as this I fear to all my children to you the older ones if posible it is more than doubled – I the bygone years when I was toiling at manual labor thinking that my health would last & I be able to work along till thee & Joseph would be able to be a help and comfort to me – never dreaming my lot for years would be so far away from you – I even then pictured a bright home in the future & at times it seems to me as if imagination was prophetic & the weary waste of years now about to burst into the reality of fancy's wildest dreams.

down in my own heart I will do what my hands find to do so that when the time does come that I can gather my children round my knee & no more go away for these long seasons I will be in a position to make a home worthy of what I hope my children to be, But I do not wish one of you to think I am labouring for what gold can bring, for even tho' it has been purified ten times in the fire yet it can take wing & fly away, I am labouring

so that you my dear children now in the seed time of life may learn such useful knowledge as will be a benefit to you in all the coming years – I often feel the loss which I have suffered by not paying more attention to education in my young years & for that reason I am very anxious that my children shall have the change & make use of it – so that when you are launched upon the world you will be fit to fill any position which chance may bring – I should not use the word chance, life is better Yes any position life may bring, and in order to be useful in the world it is necessary we also preserve our health – that is one of the first things we should look to, by that I do not mean we are to shun work – on the other hand

the mind is being filled with useful knowledge – the body should be developed & strengthened by hard labour so that when we reach an age that will call upon us to do for ourselves, we will feel that reliance that will enable us to go forward nothing doubting But of first importance and above all is to secure for our selves that peace of mind & joy which God alone can give, secure in that then life may bring no joy or sorrow & yet we know that

My Dear Daughter

Just recd thy letter. I know the three old friends faces sent me in the letter very well, you look quite Motherly tho' thy face hardly tallies with the plain garb Minnie & Rachel look rather serious, tho' I doubt not they were neither of them very grave I recd a letter from Rachel & have an answer partly written but have really had my thoughts so full of other matters that I have not completed it, but will do so soon – I have thought about it a good many times, but when I had the time I have not been in a writing mood I shall only write a short letter to day as I am stealing a few moments from business – but in those few moments I say God bless you, to all of you [illegible] I say that it means much – it means

[Page 50 - Box 24-5 – # 13 - copies of Rogers letters]

[13q]

not only that you may all find [fervent] happiness but that you may also grow up and do good – it means I want you to enjoy those things which will bring you the most joy in the in the world – If you keep that in mind I know you will be good for there is not real joy in sin – I will write again when I have more leisure but now I will say in regard to the graduating that if my life & health is spared the shall have all the schooling the wants & I might add that I have already made up my mind it would be a good thing for thee to graduate – but to the teaching part – I do not promise that just now – I rather fear the staying over in York State & teaching school – away from all of us – but we will see what the future brings – I have been looking ahead in hope to make a home when I could be one around the fireside – this hope I must give up, if the was to want to teach school & graduate too – I intended the to go to school till done & then if I still remained here – I hoped

to have some of my children with me but I will do what ever will be best for my children – I have toiled for them through many years & still will for your sake do all I can I do not say I will not consent for I think it a noble thing to meet the battle of life face to face & the day may come when I am gone, that self reliance will be of more value to the than all the money I can save & give - for that reason I will not now decide or try to discourage. I feel proud to know that the would like to do something to help along, but while I am strong & in present position, such a course will not be really necessary – all this however can be settled when the time comes nearer & we see how the rest of the children are situated – If any thing should turn so there would be a change at Mothers, I rely on the

[Page 52 - Box 24-5 – # 13 - copies of Rogers letters]

to help me make a home for the rest but I hope such a change will not come for many years – I have taken more time than I intended & must now close at once as I am needed

My Dear Daughter

Thy letter of 7th recd in due time. I should have answered it sooner but have been away to Columbus, also to Lexington & I will still be away frequently as I am closing our office at Columbus. Our yearly statements are not complete yet & will not be for some time. I was glad to hear Elias accompanied you a part of the way back to school, also glad to hear you reached there safely and pleased to know you are

[Page 54 - Box 24-5 – # 13 - copies of Rogers letters]

glad to get back. I do not doubt but what both of you [cut off] make the best use of your time & learn that which will be most useful to you in the coming time – I am glad the made it right with Rachel for the 10.00 given me, It had slipped my memory – In thy next tell me how much money the has left – so if necessary I can send more – I want the to be prudent, but at the same time use all that is necessary, for I feel that I can trust my child in these matters. If the day should ever come when it would be harder for me to get money than it is now, I know you would all try and help me, I found all my friends here glad to see me on my return & kind [cut off]

write me good long letters, for it is sometimes lonely for me. I may smile & appear glad, but there is a sad sad place in my heart, & the bright dreams of early life are often covered over by clouds of sorrow, the hidden chambers of my heart are often filled with Mildew & as the chill damps gather on its secret walls, a sense of loneliness steels over me & the realization comes with awful force that I am alone. Alone & yet in a large City,

not one kindred tie to bind me here – my children all far away, but then again comes the [gilden] hope that, some day, yes some day in the ever promising future, I shall see my children all around me – gather them near me & feel that my whole life has not been in vain – Your welfare is the guiding mainspring of my life & all my hopes are placed on you, I have now passed the midway post of life & must soon start down the incline whose terminus is the Jordan of death - I may be spared for many years, but they fly rapidly by to those who are engaged in Life's busy scenes, I would not fill young hearts with sadness or sorrow, there is no need of that, I do not ask my children to put on

all the possessions of the world cannot give – I know you are now at that age when it is very necessary to guard well every step – the school life as a rule lays the foundation for the future & Oh how I desire my children may lay a sure foundation & be benefitted by all the privilege you enjoy. Gather up & treasure from every day life that which is good – but cast off the bad like a fatal serpent – that would poison our brightest hopes & turn our sweetest joys to sadness & sorrow, & may God be with & keep you all, for Our Saviours sake.

My Dear Child

I recd thy letter on my return from Columbus & was glad to get it as I always am. I shall be much pleased to get thy picture & hope it will be a good one, I want to show it to my friends here, I have a

number of them, I have been writing several letters this evening & as there has not been much fire in the store to day, it being the Sabbath I am a little chilly, but I am never too cold to write a few words to my Dear Children – for I love you, you are my hopes for the future, it is for my Children

[Page 62 - Box 24-5 – # 13 - copies of Rogers letters]

that I am fighting this battle of life & my heart is filled with gratitude to you for His mercy in giving me such good Children. If you take your proper places in the World, then my life will not have been in vain, and that you will I have no fear, for I know you mean to do right. May Heaven ever pour down its richest blessings along your path-way, but do not look for all joy in this World, for there will be some sorrow, Yet I do not beleive it was ever intended that we are to go on our way sorrowing through this world, God made it bright & fair & planted flowers all along the way, Planted them so that we poor weary mortals might rest sometimes from our labours & gather a wayside flower

But I would not instill into the minds of My Dear Children romantic ideas, Life is earnest, Life is real & there are many hard places along its pathway, we must not look for great things, they do not often come, it is only by treasuring the passing moments as they go, that we can expect to gather the rich gems of Earthly Crowns but bright dew drops of peace on Earth & good will to men, These are Gems of rare value – Gems that not only bring peace & joy here, but Gems that will not

[Page 64 - Box 24-5 – # 13 - copies of Rogers letters]

[13t]

melt away when death draws nigh, but will grow brighter & brighter as we pass beyond the River, & flash and glisten in our Heavenly crown on high – This World so bright & fair is our field of labor, assist the weary, feed the hungry and cheer the dying, that our crown may brighter grow, It may that our work is to learn or assist at home in common daily toils, but no matter where our lot is cast, there is always work to do, let us do it cheerfully and make the most we can of all that life may bring, I am glad they do not let you off on that excuse I wrote – for I thought at the time I was doing wrong, It will be far better for you, not only to learn to compose but to read as well, I wish I had taken

[Page 63 - Box 24-5 – # 13 - copies of Rogers letters]

[13t]

more of these advantages when I was young. It would be of vast importance to me now, if I had secured a more liberal education when I was young & able to grasp & understand it – Now I could not learn as then, my education for more than 20 years has been in the hard school of life & while my life lasts I suppose it

will remain there, But I do not repine at my lot, God has been very merciful to me, has given me many blessings – the cheifest of them being my children

and enabling me to give to you a chance to secure for yourselves while you are young, a store house of knowledge from which you will be able to draw instruction in all the coming years, and I rejoice that it is so for these are riches that cannot take wings & fly away, I have bought a Broach to match thy ring, It is not large but it is very fine Gold & a pure amethyst, I hope the will like it. - I have a letter from Martha – She says Elias was home, but has again gone back to the mine. I hope he will get through all right – as it late – I will close with Much Love to thy self & Rachel – Minnie too can appropriate a small corner tho' she dont never send me any word, yet I hope she has a chance to sleep without being bothered – Good by all & love to all from

As I have recd a letter from both of you I will steal a march & make [me] letter answer both, tho by rights I should write each of you a good long letter for both of your letters were interesting & I prize them highly As I recd Sarah's letter first I will first talk a little to her, but you can both read it – I fancy the broach was not quite large enough to [suit] right – well & perhaps the was a little disappointed in its appearance but I thought it would do for

I know it will do you good to do it & as I feel proud of both of you I want you to gain all the advantages you can – I was very much pleased with thy picture & have shown it a no of times – but I must tell a joke on it – I let all my Sunday school scholars see it - & who do you think they thought it was – Why, my Wife - & they said she was very pretty – I laughed & told them that was my Daughter – they looked at me in astonishment & could hardly think it posible my child could be so old, I have such a nice class & they ware so

much time as it did to go home & that I could not spare, If it should turn so I can I may be able to go home with you summer vacation time, but even that is very uncertain – When I was home the snow on the street in many places was thru & four feet deep under the sleigh runners & to day I recd a letter from Ben he says it is worse up there, Ben is going back to the farm he & Mrs. [Sinclair] do not [fit] - I think Mrs. S is to blame as Ben has tried to please

no matter whose fault it is they they dont agree & it is better to go back to the farm – I am glad you had your sleigh ride I suppose it is more of a treat than it would be if you were home in Canada with the snow four or five feet deep – I am also glad you are looking forward to a pleasant time this summer – you can then study your lessons out in the shade of the green trees with the blue canopy of

Heaven for a ceiling, & the pure fresh air to invigorate and strengthen your frames fresh from God's own Laboratory – I can remember when I was younger in years than I am now that I used to like to get off alone – no Mortal near me, and there with Nature – the works of God all around me – sit & think – yes sit & think of the future – think of the great beyond to all young lives & carve out & plan

a destiny of my own, Many and grand were the castles painted by fancy in these early days – days now gone by forever, but days which are still written down on memory's tablet, tho' the real does not fill the record as fancy painted, yet in my checkered life many blessings have fallen & I would not fill your young hearts with sad & sombre thoughts, God has made this World one of beauty – along the little trickling streams He has planted beautiful flowers, In the rough & rugged mountains where Nature towers in all of her sublime [cut off]

[13t]

enduring monuments of beauty that must remain while the World lasts, all through the wild forests, all along the aisles of Earth & all over the arches of Heaven & has traced lines of beauty – changing lives they may be, but they will be beautiful while time goes on, God has created all of these things for us, has made them that we burdened & sometimes weary Mortals, may look up & rejoice & bless the source from whence these blessings come, I do not believe that we fulfill the end for which we were created by trying to be so good that it is a sin to laugh, I love to see young hearts rejoice & be full of gladness, we can do this and be religious too, there is nothing in christianity that should check a single smile, Some might think that this is not good advice to give to School Girls – my Dear Children & Neice - [illegible] My children, I not only love you with my whole heart, [cut off]

in you too, I know that planted deep down in your hearts is a silent monitor that when the time of trial comes, will whisper words of guidance words that you will heed, I am all alone in the office, the work of the day is done, the clock is ticking on & on & soon will tell the midnight hour, but if I should sit and let my pen run on till morning's dawn, I could not tell you of all my love & all my hopes & of all my pride for my children, I call you both my children for my heart is large enough for both, as well

I enclose five dollars for Sarah if the dont need it now it will be ready when it is wanted, you will excuse my mistakes as I have a head ache to night and I know I have made a number

as all my children in my native land, my native land, how the thought of it fills my being & carries me back so many years but I must not let my imagination have full scope when it gets on one of these wild flights, else I would tire of writing & you of reading, I said my heart was large enough for all – as my hopes are placed on all – of what use would the old battered & barren trunk be if the young bright branches were lopped off – May happiness & peace be your lot & some day in the coming years if my life should be spared so long – perhaps when my hair is white - & my limbs feeble your then strong hands may then give the old man a drink of water, May Heaven bless & keep you always & may you while my life is spared never feel one sorrow, or have one trouble but what you can feel that my heart is waiting to cheer & help you.

Bless you my Children – May you keep your God - pray to Him & He will Guide you [cut off]

To my Daughter on her 17th birth day (= June 9th)

My Darling Daughter

I recd thy letter yesterday but did not have time to write an answer & as I thought it would still reach thee in time by my taking First day, I [illegible] for it I waited till now – I am in the office all alone, many miles from any of my children, One of you, my oldest Daughter at School, three of you at My Mother's, One at my Uncles & one – my youngest – is with her Mother at my Sisterinlaws – widely scattered indeed, not one of you near me, Well do I remember seventeen years ago thy birth day some such a day as it is here to day – a warm showery day – then I have one son & one Daughter & oh how I hoped that the coming years would see my children by my side, a happy family – some clouds of sorrow even then, [God] began to fall across my pathway & as the years rolled on their intensity increased & I began to look to the years to come for that happiness which seemed to be denied me then, I said in my heart I will bear my sorrow alone, I will devote my life to toil & lay by something

[Page 76 - Box 24-5 – # 13 - copies of Rogers letters]

[13v]

[cut off] when my children – yes my children, are a little older they will gather round their stricken Father & chase his tears away, and so I laboured on, laboured beyond what my strength would bear & for this recd the name of being a grasping man – a man whose aim was to make money – Many & many were the hours (I was poor then) that I laid awake at night & tried – yes tried to think what would become of you if I should be called away to the land of shadows, It was for your sake that I lived & toiled, had you not been there I should not have cared to fight the battle longer, but in the hopes of a better day, I was strong & I pictured the coming years when thee, my Dearest oldest Daughter would be large enough to help thy Father – But soon the fight was ended & I no longer able to labour as I had done – toil worn & sad – weary & ready to die. In that hour when hope had gone My Mother came – she reached out her hand and saved your Father for you still – and by that act she got the name of coming and taking you away from my family – she took me to the Doctor & gave me money to go away to the sea shore, time passed along – I could no more work as I had done but my will was still good as ever & I determined that while I could walk in this beautiful world which God had made – see the bright sun on his daily journey & breathe the pure air of Heaven that I would not despair, so I worked on many & many were the weary hours – often driving during the five years that I traveled, did I drive over loney roads long after midnight – many times wishing I only had a home where I could live without being obliged

[Page 77 - Box 24-5 – # 13 - copies of Rogers letters]

[13v]

life's burning sun [illegible] how I rejoice [illegible] [day] to know that after may years the night of darkness seems to break away & my Daughter on whom my hopes have been placed so high will on this her seventeenth birth day reach out her hand and say Father I will help. The echoe of that voice

which I know I would hear, yes Father I will help, goes through my whole being, flashing its fire through every vein – I know not in what way my hopes in full will be realized, but there is in my inner being a certainty that not always am I to be thus alone my children scattered far and wide – God who has been so good in times past will in some way open up a pathway that will be as clear as the noon day sun – It may not be just now – it may not be next year, ~~but it will come~~ but it will come in due time & in a way which is best, I am content to wait & if this, the land of my adoption is to be my home, then I with Gods help will be able to bring you here, Or if He is willing that I again lay down to rest in my Dear old native Land, a way will there be opened & all will be as He wills it should be May His Blessing be thy lot my dear child – without that all my solicitude will be in vain – seek for guidance from Him in every time of trial & also do not forget to render thanks to Him when joy fills thy pathway – God ever bless & keep thee my child – May He who never slumbers nor sleeps watch over and guard all thy steps & May Heavens richest Blessings be all your own – My Daughter [and] my Neice – Good by from thy ever loving [illegible] I may go to NY the latter part of this week – If I do I hope to get a letter before I go

to pass through all the toil and anxiety which I did, but I thought then & I think so now that God made the way & that God has been with me all the time, Tho' I am far from being as good as I should be yet it is to His Mercy that you my dear children are indebted for all your blessings, I have not passed through this struggle unscathed & there has been times when I felt with all the pentup bitterness which slander had driven into my very soul, that it was no use for me to care & I would defy my enemies, nor try to show them they were wrong for this course I only recd more censure, but let it pass, I would not fill nor wish thy young heart to know not even a small portion of the agony I have endured – It is gone by & may it go forever – may the bright dawn of a new day bring in flowers whose fragrance will fill the morning air and drive away the night shadows of despair – may the buds of hope planted many years ago soon burst & grow up a glorious tree whose spreading leaves will sometime shield my weary head from

My Dear Daughter
Union Springs

Thy letter of 21st recd long ago but not answered yet, So I will to day start a letter even if I do not complete it – I just returned last night from Columbus I have been there a great deal of time during the last two months but have now gotten it in shape so that I will not have so much trouble.

We are now right in the midst of spring – the grass is green & the trees putting out in leaf – I drove out over the Hills on last Sabbath afternoon Howard Smith accompanied me – It was very pleasant indeed but I should have enjoyed it more if I had both of you along with me – I sometimes wish I had a home here so I could have my children with me always, But there seems to be that uncertainty about my future which does not warrant a great out-lay, I could not live here & have you all with me short of

[Page 80 - Box 24-5 - # 13 - copies of Rogers letters]

[13w]

[200] per month – but I would not mind [that] if I become reasonably assured that my business will hold good for any length of time.

As it now stands, in case of change I can turn to something else – I feel it is my duty to look closely to all the chances for I am determined with Gods help that I will give my children a good education – It is something which no reverses of time can tear away from you – It is a store House from which you can in the coming years draw both comfort & help. This life if left to a mere animal existance – like the beast that lives & dies or the door that comes & goes on its hinges – becomes drear indeed – but if beautiful & made lovely by culture & refinement – living stream of enjoyment may spring up all along our pathway through this world. The Christians pathway is one of joy – not free from care & anxiety – but a quiet trust in God, that mid the darkest trials Earth can bring will still clothe the face with Smiles & make the heart glad – how I rejoice in the hope which my children bring to my darkened life. In the years gone by, when my struggle for a sustenance was great – many & many are the wakeful hours I have spent – my whole being wrapped in agony when contemplating the future which seemed to loom up for my children, then I was shattered in health & poor in this Worlds goods & I often wondered what would become of my children, when I was gone But God has been very good – He has spared all my children & has helped me to

provide for you & give you a chance to obtain an education, I am filled with deep gratitude for all of these mercies - But my greatest joy is in my children & I am looking with all a Fathers joy and pride to your success in life, By success I mean all that can make you useful & better in this World & fit you for an entrance in that World to come To say that I am proud of you does not [tell] my meaning for that might mean simply a pride of good appearance or [worldly] attainment. I am proud because I think you are good & your hearts filled with noble impulses - Proud because I beleive you will grow up good & do good in the World after ~~after~~ I am gone - I am now past the middle walk of life & if I should live for twenty years more will be an old man my next birth day will make me forty, I can remember the time when to be forty, seemed to me to be very old, but now it does not seem so old & yet the time goes by like the wind - Winter is gone & Summer near & then fall & Winter in rapid

whirl go by - But my Dear Child I will stop this moralising for I know the is a good Girl - I know you are both good & I love you both & pray for both, May Heaven ever bless & keep not only you, but all my dear ones - & if my life should be spared till my steps grow feeble & my eyesight dim, perhaps I may then if not before find a home with my children, but while God gives me strength to fight lifes battle I for your sake will meet all that comes, I have just recd Rachel's letter & will write her one in a day or two - I am always glad when I look over my mail & see a letter from the school, I send two money orders in this one for 20 & for 50.00 The will need to sign them Sarah Rogers, for I forgot to put the middle letter in thy name when getting the order - for my part I do not see why they have three weeks vacation at Easter - it is a great loss of time & no good - a week would do very well but three of them is a humbug. I shall want thee to go back again after Summer vacation

for I think it better to finish thy schooling while at it & may be something may turn up that will enable me to have a house of my own some time – I have already written more than I intended and will now close with much love to both of you – from thy ever loving Father

I have just recd thy letter this Am & hasten a reply. I wish I could pour out the full feeling of my Soul, its doubts, its hopes, its fears, its love, but I cant tell it all, I cant clothe in words the full thoughts that often fill my whole being, it is like some raging flood confined by rocky walls on every side – whose white capped waves dash against the rugged cliff's in vain, the spray is all that can climb the dizzy hights - [cut off] great & roaring flood lies far down in [these] [illegible] walls, but is still there & will remain while life lasts. “My Daughter” & my Children, You know I love you, I may not show it as much as some, but if you could see my heart you would know that sometimes when I say least I think most – this morning it is full – yes full to overflowing & it is with difficulty that I can keep back the tears, I am in the office & have several times had to choke them back when some of the hands have come near me. My Dear Daughter the can [never] know the anxious thoughts that now fill my very soul – I have never tried to hold a tight hand on my children – I have never

I know this is an old story which many a Parent has told to their children & that too often the young will not be guided by the counsel of the old – I am not old in years, but in the varied scenes of life my locks are gray. as doing not one joy is (plucked from our pathway in this world – they are rather increasing 100 fold – strive for the good [will] of [all] & if thee cant speak well of thy school mates say nothing – select for companions those who are good & true, but treat all with kindness – gain the good will of all & remember that the coming year is to be the seed time of thy young life. God grant that the fruit which it will bring will be good fruit - & that ~~& that~~ I, should I live till my locks are white & my limbs tremble can lay down in the arms of my children in perfect [peace]. May the richest blessing of Heaven be with you all my own dear Children – I wish I could be down so as to take you over to the school. If you leave home in the morning you will not get away from Suspension bridge till dark as you have to wait in Hamilton or Toronto. I have wondered if by staying over night in Toronto & taking early train you could not get to the school the same day you leave the City but I leave all this to the good judgment of Martha tho I do [wish] you were quietly settled at the school. I shall look for a letter as soon as the get there & after will look for them regular With much love to all I am thy ever loving Father

My Dear Daughter –

I have just been up to Sarnia & Petrolea & now on the road home – expect to start at six in the morning – I have been laid up with La Grippe & so lost a week, If I go to Engld this month will have to start one week from today & will not be able to come to Ottawa before going as I intended owing to so many things crowding in at the last. I really should not leave home now, but that college work has to be done & will be a load till it is over

[Page 95 - Box 24-5 – # 13 - copies of Rogers letters]

[13x]

so if I find a letter on my return home from J.R. Harris saying he can go I suppose we will start – I expect to have to run up to North Bay tomorrow night - & then return Saturday night – reaching Toronto on [Tuesday] Am – I dislike going to the Old [illegible] very much at this time - I see so much work that I could & should do in fact I hardly see how I can be away – I shall hurry back as soon as posible & hope very much that some one or more than one, will give a good large sum & send us home rejoicing. I lost Dr [illegible] names that he gave me to send [illegible] so if he will send them again I will send them - [James] Harris Brother John Richard got hurt

going to ask for money I dont like – We have had fully half our men laid up with La grippe & it has made things topsy turvy – I hope to find an improvement when I get home – I have been quite uneasy for fear Albert would get sick – there is so much resting on his shoulders – especially when I am away – I do not seem to do much when at home but things turn up & a few words decides what to do – I could not see my way at all only [for] trust that it is right for some one to go & I see no one else. The Lord has blessed us this past year & it may be that it is for this purpose – I suppose you are now pretty well settled in your new home I hope you will have many pleasant friends & may the dear Master bless you both & may your path through life [illegible] of quiet trust looking for guidance in Him [cut off]

My Dear Sister

After having recruited up for two or three days I take up my pen to write a few lines to thee. I arrived in safety in four days after leaving [Mother] and I was not as tired when I got here as I was after riding out to Mothers first day evening, I feel a good deal better since I came here the atmosphere is quite different here from what it is at home, heavy clothes are quite comfortable particularly in the mornings and evenings

[Page 100 - Box 24-5 - # 13 - copies of Rogers letters]

[Note: The sequence of the sections is unclear here.]

I have got an excellent place to stay in with lots of agreeable company & it doesnt take a person long to get acquainted here for every body that comes seems to take it for granted that they are one of the family and it is a free country and they can do as they please. We make a practice of going in [and] bathing once a day men women & children all together and I am sure if you could be standing on the cliff looking on it would make you laugh heartily, of course we have bathing clothes to put on but if any thing that only adds to the novelty of the scene, the water feels nearly as cold as ice when you first go in, but after bathing several times it begins to feel a little more bearable There is plenty of amusement here on this Island for almost every day there is a picnic party comes over from portland bringing their dinner with them & plenty of music they scatter round amongst the spruce trees of which ther are any quantity lay their dinner in the Shade & then go to work and gather a [cut off] of clams, heat up a lot of stones and mak a clamb bake, the next performance is to go to work & eat them all up and then out comes the music and the

way they enjoy themselves is a [caution]. We got up a company yesterday of our boarders & hired captain Sanford to take us out [illegible] or twelve [illegible] miles to sea in his schooner to fish for cod. It was a pleasant trip and the way we bounced along over the waves was fun Several of our party thought it was pretty rough, but as for me I like to be standing on the deck watching the waves as they come up with their heads crowned with foam tossing our small bark like a nut shell on the deep Our captain was most afraid to anchor for us to try our hand at the fish, but he finally consented and we fished for half an hour in water 150 feet deep I caught four codfish & [illegible] polek they weighed from 6 to 10 pounds. I have room to write no more at present. I am in hopes to get a letter from home soon it seems a long while since I came from home but I enjoy my self well here and I consider it as a blessing to be able to get along as well as I have I hope Mother got home safe from [illegible] You must write right off for I am in a hurry to hear I will now close this [illegible] and remain thy affectionate Brother

J.R. Harris has just come from England he brought the sugar spoon – they found it in my room at Howard Nicholsons – I am afraid the old tea spoons have gone I suppose they have been wrapped up in paper loosely & as I did not have the list at the time of unpacking & was in a hurry they may have gone in the waste-paper – I am very sorry but it cant be helped I will send you the sugar spoon first chance or by mail – I hope you did not get cold by being out – no car overtook me but I did not mind the walk & slept all right – The Dr was partly right about the station – it is to the East of where we were standing but yet on the left of the track – so both

of us were right - [illegible] J. Howards wife has gone out of her mind – the Doctor thinks she will recover but has recommended them to take her to the assylum – she is to be taken this evening – I should think it will be a heavy blow to Mr Howards hardness & hope he may be led nearer to God than I fear he has been

– I have but little doubt but what the strain on Mrs H has had something to do with her sickness – I hope they may both of them receive a blessing in the end – We had a good prayer meeting last night – 24 in attendance – I believe our meetings are better than they would be even if we had a minister who felt called to always preach – We are talking of having a tent at Y Meeting & having it pitched near the College so as to use both if needed

With much love
from Father

My Dear Daughter. It is 10 minutes to 10 I am in my room – I started a letter to you one week ago tonight but I did not feel like writing had a bad cold & did not finish it, I have not yet gotten fully over it but am better. but I am sorry that Albert seems to be getting it Tonight. We have had so much work on hand & so many things

to worry about that it has been rush all the Time but all things will come right in the end. Smith Anderson and Marshall were all laid up through whiskey at one time – I had the whole three round me in the office at one time, I felt sick but they are all out now & I think Jack is converted & Smith has made a fresh start. I think perhaps he is stronger – I have been praying for Jack Anderson for ten years & I think he will pull through – he stood up & [couldnt] say a word – broke clean down – but stood after & said he had no Christian experience It give but [wanted] to lead a better life & he seems to be going steadily along – may the Lord help him – I should have answered thy first very welcome and interesting letter – but now that another one has come I will only have one to write But tho' I do not write you both know that I

to Darlington to stay over first day – I will try and call & see Drs [Tisler] - did not have time to call on his Brother in London The thought of this work has been a great burden to me & it is only the great need of the Church that have made me willing – I can see very clearly now that it is a great help to the cause my coming – friends have been very kind to me & they give more freely than they would to strangers – We are dividing up & the committee will appoint some one to go with each of us JR is working round London while the circulars are being printed

We shall finish with all our might so as to get home soon with much love to both of you from Father

- I will be able to tell you some very interesting things about Pompei - I am gathering a fine lot photos of this & other places – they are so very cheap, only 91/2 cents (1/2 franc) each [(illegible)] (we get 26 ½ frames for £) [(illegible)] size 5 x 8 – good views

- At [illegible] we saw an old palace of Emperor Tiberius ruins – There was some pavement exactly like Pompei, so must be genuine

- At first it seemed cold here at night but I am getting on to [way to care of it] & now have no difficulty – I am sure will join rapidly – it is such a rest for mind & body – I sometimes think how engrossed you will be how heavy it must be for you, but as I am away I have to put it aside with the [illegible] that [illegible] will not help until [illegible] dear [illegible] Albert
